DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 8-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 8, terms such as “in particular”, or “for example”, render the claim indefinite, because it is not clear whether the limitation following these terms is part of the claim.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 10-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Engeler.

Regarding claim 10, Engeler discloses a pressure transducer for a plastic substrate with features of the claimed invention including a pressure sensor having a sensor element for determination of a pressure in a cavity of an injection-molding wherein the sensor element is arranged in a hole in a wall comprising sensor element seated in a sleeve (see, for example claim 1) wherein the sensor element is seated with play (element 12).

Art Unit: 2855

Regarding claim 11, the sleeve is place in a body, which can be considered a base body.

Regarding claim 12, the pieces are screwed together (see figure 5)

Regarding claim 13, Engeler teaches the use of adhesive bond for sleeve (col. 7, lines 24-25).

Regarding claim 14, the cited art shows annual gap which is also being used for (see, for example, claim 3).

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
